What is the #GDoCExpo?

In 2016 the Game Devs of Color Expo was founded as an arcade of games made by creators of color and round tables to discuss race and game culture.

Since then it has grown into a full **games expo** and **conference** pushing to create a new normal; creators of color showing off their games, building culture, and pushing games forward as an artform.

The 4th annual event will be held in **July of 2019** at the Schomburg Center in New York City.
